PERSHING COUNTY
(Source: Prepared by State Lands, May 1986)

Disposal of certain public lands (approximately 8,000 acres) within Pershing County was identified by the BLM in the Sonoma-Gerlach Management Plan, developed in 1982. The BLM has recently completed a Land Tenure Amendment to the existing 1982 Management Plan. This amendment identifies a much larger acreage of lands tentatively suitable for disposal. The County and BLM need to cooperatively develop a priority for land disposal in the county.

TABLE 2: FOR PRIVATE PURPOSES - The acreage is an estimate and specific sections may not include the entire section.
